28 February 2022

HALF YEAR 2022 REPORT

Unaudited Half Year Consolidated Result

The Directors of Allied Farmers Limited (**AFL**.NZX) report an unaudited consolidated net profit before tax (**NPBT**) of \$1.438 million for the six months ended 31 December 2021. This is above the updated HY22 NPBT range of \$1.2m to \$1.4m provided to the market on 28 January 2022.

The following table summarises consolidated NPBT over the previous interim periods from Allied Farmers's investments and Parent Company Operations:

Interim Period (1 July - 31 December)	NZ Farmers Livestock * (livestock agency, meat export and finance)	NZ Rural Land Management (asset management)	Parent Company Cost of Operations
	(\$m)	(\$m)	(\$m)
2017	0.4	-	(0.3)
2018	1.5	-	(0.2)
2019	1.7	-	(0.4)
2020	0.8	-	(0.3)
2021	1.5	0.3**	(0.4)

^{*}Reported figures displayed detail 100% of the NPBT for NZFL – Allied Farmers only owns 67% of this business. Allied Farmers is required to report on a consolidated basis but has detailed an unconsolidated position below.

This higher result reflects the inclusion for the first time (for an interim period) of the NZ Rural Land Management GP Ltd (NZRLM) contribution. In addition, the NZ Farmers Livestock Limited (NZFL) contribution was considerably higher than the previous interim period, driven by substantially stronger revenue from its Farmers Meat Export business.

Profit attributable to Allied Farmers's shareholders reflecting its 67% ownership of NZFL and 50% of NZRLM

The HY22 after tax profit attributable to Allied Farmers' shareholders was \$1.059 million (HY21 \$0.228 million). Earnings per share (EPS) for HY22 was \$0.0368 (HY21 \$0.0079).

^{**} The NZRLM profit of \$0.3m stated in the table above is attributable of Allied Farmers shareholders (i.e NZRLM's total NPBT was \$0.6m)

Dividend & Net Tangible Assets Per Share

Consistent with previous interim periods, no dividend will be paid for the period as the Company continues to retain capital.

As indicated at the Annual Meeting last November, the Board's view is that in the short term, retaining and redeploying earnings is in shareholders' best interests, particularly as the Independent Directors consider various funding options if Allied were to recommend calling its option to acquire the 50% of NZ Rural Land Management it does not already own (see further comment under "Focus for 2022" below).

Allied Farmers Net Tangible Assets (**NTA**) per share based on 67% direct ownership of NZ Farmers Livestock, and 50% ownership of NZRLM as at 31 December 2021 equals \$0.42 cents per share (versus \$0.32 cents per share as at 31 December 2020).

Business Segment Reports

Livestock Agency

The livestock agency result reflects the negative impacts of Covid and unfavourable weather.

Clients and agents have benefited from the continued development of our MyLiveStock digital platform, which provides important options in the face of Covid challenges. We continue a focus on agent team development and provision of supporting tools.

Farmers Meat Export

The vast majority of NZFL's earnings for the period were contributed by Farmers Meat Export. It benefited from a faster than anticipated recovery of product prices, maintenance of stock tallies, and an earlier than usual sale of the main Spring production. The latter has removed any export logistics risk, and reflects the value of the contracted arrangements in place. This was a very strong result, built upon close management and the procurement performance of our livestock and wider team.

Farmers Meat Export shortly commences its autumn processing, which is anticipated to be at similar levels to last year. Our processor has appropriate Covid management arrangements, and we have good confidence for the more major Spring campaign mid-calendar year.

Livestock Finance

The contribution from our Livestock finance activities was slightly below last year due to buoyant livestock and dairy prices, funder constraints on the scope of lending, and repayment late in the period by several larger borrowers. We are exploring initiatives to diversify and grow this business in a capital efficient manner. Good progress has been made with our Lambplan (store lamb) lending initiative which will incrementally add to the finance offering.

NZ Farmers Livestock Outlook

Stock values are generally high, and while Covid presents some risk, particularly to primary processing and the pricing of some stock, any issue that may develop may also raise agency trading

volumes. We expect significant improvements in livestock trading activity for the balance of the year due to these higher prices, the return to more favourable weather patterns nationally, good herd sales activity, and reducing Covid impacts.

Dairy herd forward sales are arranged throughout the financial year but not accounted until contracts settle late in the financial year. With dairy farm sales activity and a higher milk pay-out, these contracted sales levels are appreciably ahead of last year, and we expect to see a significant earnings contribution late in the second half of the financial year.

As in many previous years, the returns from Farmers Meat Export continue to be a major contributor to first half year performance. However, investors are reminded that typically Allied Farmers's second half year profit is driven by factors distinct from this business that drives first half year profit. The second half is strongly influenced by livestock trading and herd sale activity, much of which will occur in the later part of the second half, and therefore while it is not possible to forecast full year profits based on first half performance, the anticipated trading environment should ensure a pleasing full year result.

NZ Rural Land Management Partnership (NZRLM) – Manager of NZX-listed New Zealand Rural Land Company (NZL.NZX)

NZRLM contributed \$0.3m to Allied Farmers in the interim period, during which NZL completed two acquisitions.

The first acquisition, completed in August 2021, was a 493-hectare hybrid dairy farm located in Waimate, South Canterbury. NZL has entered a put and call options deed where interests associated with the vendor may call for the repurchase of the property from NZL at any time.

In addition, NZL will have the option to put the farm to the vendor and require it to purchase it back in approximately two years. The purchase price will be \$12m plus 4.66% per annum in either case.

NZL's second acquisition was a portfolio of six large scale dairy assets in Maniototo, Central Otago, totalling approximately 3,500 hectares. The portfolio comprises a mixture of productive dairy platforms, support farms and modern infrastructure. The purchase price for the farms was \$60.640m.

The Manager continues to investigate further investments to increase sector and tenant diversity. NZL has an attractive acquisition pipeline, with the Manager progressing due diligence on several new opportunities at present.

NZRLM Outlook

It is not possible to provide a forecast for NZRLM but as stated above NZL has an attractive acquisition pipeline, with NZRLM as Manager progressing due diligence on several new opportunities at present.

Focus for 2022

The Allied Farmers' Board continues to focus on growth in earnings per share and careful consideration of how it can utilise its strengthening balance sheet to build value for its shareholders.

Specifically, investors will be aware that this year the Independent Directors will need to consider whether Allied Farmers wishes to recommend calling its option to acquire the 50% of NZRLM it does not already own. Whilst the call option can only be exercised after 18 December this year, the Independent Directors are mindful that significant preparatory activity is required to inform and enable any decision. This work includes the timing of making any call (the option expires on 18 December 2023) and the mechanism for funding.

Mark Franklin Chair

Financial performance

In this section

This section explains the financial performance of the Group providing additional information about individual items in the Profit and Loss Statement, including:

- the key operating segment information regularly reported to and reviewed by the Directors.
- accounting policies, judgements and estimates that are relevant for understanding items recognised in the Profit and Loss Statement and Balance Sheet.

How we operate and generate returns for shareholders

Livestock services: An agency business facilitating livestock transactions and the procurement and export of veal.

Financial services: Providing livestock finance to farmer client.

Rural Land Management: Investment in New Zealand Rural Land Management Partnership the contracted asset manager of New Zealand Rural Land Company Limited.

Parent operations: The ultimate holding company for Allied Group's investments and governance activity for the Group.

^{*} The Group has significant unused tax losses of \$40.6m.

Measurement and Recognition

Commission income on facilitating a livestock sale agreement, grazing agreement or forward livestock sale agreement is recognised when the sale is agreed by a vendor and purchaser. The Group is acting as an agent as it doesn't have inventory risk and isn't able to set a price.

Forward delivery contracts in relation to herd sales on which commission income is earned contain an element of variable consideration due to the timeframe between when the sale is agreed and its completion. At 31 December 2021 all (2020: none) no forward delivery contracts have settled and therefore the variable consideration has no impact on the revenue recognised.

Sale of goods (veal meat and skins) revenue is recognised when delivered to the customer, or once goods are delivered to the customer. The Group is deemed a principal, rather than an agent, as it holds inventory risk.

Fee income relates to RFID scanning fees, yard fees charged at saleyards and valuation fees. The income is recognised when livestock are scanned, a sale is agreed within the auction or when the livestock are weighed. The Group is acting as a principal as it is primarily responsible for the service rendered and is able to set a price.

Finance receivables interest income is recognised using the effective interest method. The calculation of the effective interest rate includes all fees that are integral to the effective interest rate. All fees except those charged to customer accounts in arrears are considered to be integral to the effective interest rate. Fees charged to customer accounts in arrears are recognised as income at the time the fees are charged.

The shares in New Zealand Rural Land Company Limited are equity investments quoted in an active market which the Group has elected to designate as a financial asset at fair value through Other Comprehensive Income. The fair value of these shares at 31 December 2021 is \$2,394,000 (30 June 2021 \$990,000). The Company also owns a 50% interest in NZ Rural Land Management Partnership (NZRLM). NZRLM is the external manager of New Zealand Rural Land Company Limited. The Group has determined that it has significant influence but not control over NZRLM. Accordingly, the Group papelies the equity method of accounting to its investment in NZRLM. Under the equity method the investment is initially recongnised at cost, and the carrying amount corresponds to the investee after the deal or adequisition.

About this report

Allied Farmers Limited is a for-profit entity domiciled in New Zealand and registered under the Companies Act 1993. The company is an FMC Entity in terms of the Financial Markets Conduct Act 2013 and prepares its financial statements in accordance with that Act, the Financial Reporting Act 2013, and NZX Main Board Listing Rules.

The consolidated financial statements are for Allied Farmers Limited and its subsidiaries (together referred to as "Allied") and Allied's interests in associates as at end for the 6 months ended 31 December 2021.

The interim financial statements have been prepared in accordance with New Zealand generally accepted accounting practice (GAAP) and comply with NZ IAS 34 Interim Financial Reporting.

These Consolidated Financial Statements ("Financial Statements") have been approved for issue by the Board of Directors on 28 February 2022.

Statement of compliance and basis of preparation

The financial statements have been prepared:

- in accordance with Generally Accepted Accounting Practice (GAAP) in New Zealand and comply with International Financial Reporting Standards (IFRS) and the New Zealand equivalents to IFRS (NZ IFRS) and other applicable financial reporting standards, as appropriate for a Tier 1 for-profit entity:
- on the basis of going concern. The directors, having considered projected future performance and the availability of financing, consider the going concern basis to be appropriate;
- presented on the basis of historical cost; and
- in New Zealand dollars, with all values rounded to the nearest thousand dollars unless otherwise stated.

In preparing the Group financial statements, all material intragroup transactions, balances, income and expenses have been eliminated. Subsidiaries are consolidated on the date on which control is obtained to the date on which control is lost.

The fair value of Financial Assets and liabilities approximates their carrying value.

These financial statements do not include all the notes and information normally included in the annual financial statements. Accordingly, they should be read in conjunction with the annual financial statements for the year ended 30 June 2021.

Other accounting policies

The accounting policies have been consistently applied to the periods in these financial statements. Where the presentation and structure of the financial statements has changed comparative figures have been amended to align with this periods presentation.

Critical judgements and estimates

The financial statements have been prepared using significant estimates and critical judgements disclosed in the 2021 Annual Report.

Events subsequent to period end date

The financial statements at 31 December 2021 include estimates and judgements in respect of the potential impact of Covid-19 on the Group's financial position and results. Whilst these reflect all available information at the date these financial statements are approved it is noted that there is significant uncertain with regards to medium and long term efect of Covid-19 on the New Zealand economy and livestock agency related industries.
